

## Technical data:

### 2500 EBDZ Trailer-mounted

|                        |                                     |
|------------------------|-------------------------------------|
| Max. working height    | 25.1 m                              |
| Max. outreach          | 12.6 m                              |
| Max. basket load       | 200 kg                              |
| Rotation               | ± 400°                              |
| Turnable basket        | 1.25x0.8x1.1 m (2 x 41° electrical) |
| Power supply           | Battery/diesel                      |
| Battery                | 24V/180Ah/5h                        |
| Charger                | 30 A                                |
| Diesel engine          | 14 kW/18.8 hp                       |
| Generator              | 24V/22A                             |
| Travelling length      | 8.40 m                              |
| Travelling height      | 2.10 m                              |
| Travelling width       | 1.70 m                              |
| Operational width      | 4.25 m                              |
| Total weight           | 3180 kg                             |
| 230 V outlet in basket | +                                   |
| Proportional controls  | +                                   |
| Hydraulic stabilizers  | +                                   |
| Propulsion             | 0                                   |
