

## Technical data:

## 2900 EBDZ

Trailer-mounted

|                        |                                         |
|------------------------|-----------------------------------------|
| Max. working height    | 29.0 m                                  |
| Max. outreach          | 12.3 m                                  |
| Max. basket load       | 200 Kgs.                                |
| Rotation               | ± 400°                                  |
| Turnable basket        | 1.25 x 0.8 x 1.1 m (2 x 41° electrical) |
| Power supply           | Battery / Diesel                        |
| Battery                | 4x6 V / 240 Ah                          |
| Charger                | 20 Amp.                                 |
| Diesel engine          | 14 kW / 18.8 HP                         |
| Generator              | 24 V / 22 Amp.                          |
| Travelling length      | 9.20 m                                  |
| Travelling height      | 2.10 m                                  |
| Travelling width       | 1.70 m                                  |
| Operational width      | 4.25 m                                  |
| Total weight*          | 3500 Kgs.                               |
| 230 V outlet in basket | +                                       |
| Proportional controls  | +                                       |
| Hydraulic stabilizers  | +                                       |
| Propulsion             | 0                                       |
